OBJECTIVE

I'm a highly driven, meticulous, and productive individual seeking a Full Stack Developer position. Proficient in both front-end and back-end technologies including JavaScript (React, Node.js), HTML/CSS, Python, and SQL/NoSQL databases and Data Structures and Algorithms. Passionate about clean code, intuitive UI, and continuous learning; eager to build impactful products with a forward-thinking team.

EDUCATION

B.Tech in Computer Science and Engineering, University of Engineering and management, Kolkata 2021-2025

Intermediate in Science, DR Chandra deo yadav +2 H/S Bilauri, Lakhisarai 2021

SKILLS

C Programming, Java, Spring Boot, HTML, Css, Bootstrap, Tailwind Css, JavaScript, Python, React js, Node js, Git, MySQL, Data Structures & Algorithms, MS Excel, PowerBI

PROJECTS

Attendance Management System ([Check here](#))

- Technologies used: Java, NetBeans, MySql
- Developed a Java application with features like login, user registration, attendance marking, dashboard, etc.
- Implemented GUI using JFrame and used MySQL for backend data storage.

Kolkata Cafe Plaza ([Check here](#))

- Technologies used: HTML, CSS, JavaScript, Vs-Code
- Highlighted key details of the best cafes in Kolkata, including ratings, locations, and cuisines.
- Included categorized menus with prices for top dishes available for online ordering.

Super Store Sale Analysis ([Check here](#))

- Technologies used: Power BI, Ms Excel
- Created an interactive Super Store Sales Dashboard in Power BI to analyze sales trends, customer preferences, and shipping efficiency. Integrated dynamic visualizations such as regional filters, payment mode insights, and profitability heatmaps to support data-driven decisions in retail.

INTERNSHIP

Frontend Web Development 25th June 2024 - 5th August 2024 — CSRBOX With IBM SkillsBuild • I was assigned to work on a project focused on the Sustainable Development Goals. • Scrapify is a web platform developed to promote environmental sustainability by using Html, Css and Javascript.

Java Development 10th June 2024 - 10th September 2024 — CodeAlpha, certified with MSME • The task involves developing three Java applications: a word counter to analyze text files, a library management system to handle book and user data, and an attendance management system to track and report attendance, all using a database for data storage and retrieval.

CERTIFICATIONS

• Programming in Java (NPTEL) • Database Management System (NPTEL) • Enhancing Soft Skill (NPTEL) • MySQL Essential Training (Coursera)

ACHIEVEMENTS

Solved **250+** problems on Leetcode, GeeksforGeeks, HackerRank.
